

Delmarva AI Response Plan

DPI Emergency Poultry Disease Task Force

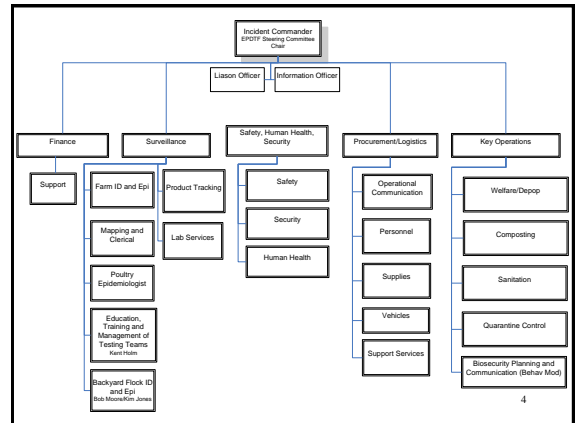

Bruce Stewart-Brown
Perdue Farms Inc.

How worried should we still be?

- Asian Bird Flu continues to spread – in birds and humans
- However, still a bird virus
- Two H5 introductions in West Virginia/Virginia

Incident Command, Command Staff, General Staff

- Incident Command
- Surveillance
- Finance
- Safety, Human Health, and Security
- Logistics/Procurement
- Welfare/Depopulation
- Composting
- Sanitation
- Communication

Incident Command - Roles

- Communicate and give direction to teams
- Determine basis and scope of eradication
- Work with State/Federal personnel
- Generate and Manage the daily task list

Surveillance Team

Surveillance - Roles

- Collect and organize farm information to determine the scope of the surveillance process.
- To coordinate with growers the timing and collection of samples (2/6 mile, epi links, high mortality, preprocessing < 24 hours)
- To collect samples quickly and effectively from farms in a zone determined by the IC.
- To insure that all testing is complete during both the incidence and also the release of a quarantined premise and its eventual repopulation.

Epi-links

(Feed Truck Deliveries)

The image shows a screenshot of a data table with two sections. The top section is titled 'Transaction Date = 09/07/2007' and the bottom section is 'Transaction Date = 09/08/2007'. Both sections have columns for 'Truck #', 'Farm Name', 'Load #', 'Y', 'Feed Mt3', 'Date', 'Time', 'Driver', and 'Total'. Several rows in both sections are highlighted in yellow, indicating specific feed truck deliveries.

Epi-links

(Visitors Log)

The image shows a 'Farm Visitor Log' form with the header 'Biosecurity: Protect Your Livelihood'. The form includes fields for 'Farm Name' (Fulton Park) and 'Date Visited' (11/16/07). Below is a table with columns for 'VISITOR NAME', 'COMPANY', 'DATE', 'ENTERED HOUR:MIN', and 'PURPOSE OF VISIT'. Handwritten entries include names like 'Kip Shubert', 'Doy Johnson', 'Gary J. Johnson', 'Rick Cook', 'Doy Johnson', 'Shirley Johnson', and 'Amy L. Seaman'. The entry for 'Rick Cook' is circled in red.

Safety/Human Health/Security

Team

10

Safety/Human Health/Security

- Provide the required safety training & medical services in conjunction with Live Production Mgrs.
- Safety will review all training files for responders and validate before deployment in Staging Area
- Ensure on-site safety of response members & SOPs adhered to throughout process
- Scribe activities associated with the site response
- Control Access at Staging Area & Farms during Depop & Composting
- Conduct Human Health Surveillance & issue Tamiflu

11

APPENDIX B

The image shows a document titled 'Perdue Farms' with a checklist of biosecurity and safety measures. The checklist includes items such as: 'General All Awareness & Theory Health training has been given...', 'The 12762 units of avian influenza and 127695 US methods of AI have not been found to cause disease in any humans...', 'These guidelines provided by my employer are the recommendations of the Centers for Disease Control and Prevention...', 'Prior to being exposed to AI infected poultry or premises contaminated with AI virus, I will have completed and passed the "AI biosecurity" training...', 'The incident number, the vehicle to be given at least two weeks prior to the Depop - Composting event...', 'All animal medications (antibiotics) are to be stored in use at the time of the Depop - Composting event...', and 'Instructions have been to how to properly remove contaminated PPE to prevent cross contamination...'. The document is signed and dated 9/17/07.

12

Logistics/Procurement Team

13

Logistics - Roles

- To meet the material and personnel needs of the Surveillance, Depopulation, Safety, Composting and Sanitation teams.
- Organize and distribute materials used by the team in a timely fashion
- Organize hotel arrangements

14

Welfare/Depopulation Team

15

Animal Welfare/Depopulation - Roles

- Ensure that all birds are humanely euthanized.
- Complete an Animal Welfare Evaluation Form on each house.
- Depopulate up to 18 houses per day (7 per team). With the capability to do 50 houses in 72 hours.
- Safety of all team members involved in the depopulation.

16

Sanitation Team

19

Sanitation- Roles

- Primary Goal of the Sanitation Team is to restrict the spread of virus from the positive farm(s).
- Accomplished with the following objectives:
 - Complete and thorough cleaning and disinfection of all vehicles, and equipment that exit the positive farm(s).
 - Proper disposal of all material that remains on the farm.
 - Transportation of all associates to and from the positive farm(s)
 - Coordinate the personnel Decontamination

20

Composting/Disposal Team

21

Composting/Disposal - Roles

- Facilitate the disposal of poultry in depopulated houses through composting.
- Define the personnel, equipment and resources needed.
- Supervise the crews and resources needed to compost the depopulated birds.
- Coordinate composting with depopulation crews based on needs and resources presented.
- Have the capability to compost 50 houses in 72 hours, (one crew – 2 houses in 10 hours).

22

Communications Team

23

Communications - Roles

- Interface with media
- Facilitate actions of the strike force through cooperative communication with State and Federal agencies (including local police departments)
- Protect company and brand reputation through accurate, timely, credible communication

24

Communications – Action Items

- Collect information on situation
- Convene Communications Team and assign tasks
- Contact state and national trade associations
- Revise pre- prepared communications materials
- Activate Media Center/War Room
- Launch communications vehicles as situation warrants
- Monitor media, customer and consumer reaction
- Update/expand communications as situation evolves

25

EPD Incident

- Career changing
- 150 people working on different things – needing leadership

26
